Description: Report on "National Level Seminar on AI Security Governance"

Engg College √ **Polytechnic**

The **Department of Computer Science and Engineering (Data Science & Cyber Security)** at **G H Raisoni College of Engineering and Management (GHRCEM), Pune**, under the esteemed aegis of **The Institution of Engineers (India) [IEI] Student Chapter**, successfully conducted a National-level technical seminar on **"AI Security Governance"** on **1st October 2026**. The session was formally inaugurated with opening remarks underlining the urgent industry mandate for establishing resilient cybersecurity protocols, accountability mechanisms, and defensible security frameworks to govern enterprise-scale artificial intelligence deployments.

The session featured distinguished industry expert **Mr. Ravindra Gotavade**, Senior Domain Architect (OT Security). Possessing eminent professional credentials including **ISA/IEC 62443 Cybersecurity Expert**, **CISSP**, **CISM**, and **SANS GIAC Defensible Security Architecture (GDSA)** certifications, **Mr. Ravindra Gotavade** brought extensive technical authority to the forum, presenting real-world architectures and defensive strategies essential for protecting operational technology and cognitive algorithmic pipelines against sophisticated threat vectors.

During the comprehensive technical dialogue, the speaker explored core facets of AI risk governance, focusing on threat modeling, model tampering vulnerabilities, training data poisoning countermeasures, and zero-trust policy enforcement. **Mr. Ravindra Gotavade** highlighted proactive defense methodologies, cryptographic integrity validation, and global regulatory benchmarks that engineering professionals must integrate across modern development lifecycles to ensure transparency, compliance, and resilient defense-in-depth security postures.

The virtual seminar engaged over **120 aspiring engineering undergraduates** and faculty members in an interactive Q&A deliberation addressing modern cybersecurity career pathways and governance architectures. The technical program concluded with a formal vote of thanks presented by IEI Faculty Coordinator **Prof. Gayatri Deshmukh**, expressing profound appreciation to the leadership of HOD **Dr. Deepika Ajalkar**, I/C Director **Dr. N. B. Hulle**, and Campus Director **Dr. R. D. Kharadkar** for driving premier technical initiatives.
